Regulation (EC) No. 1907/2006 of the European Parliament and the Council (also referred to as "REACH") is the European Chemicals Regulation for the Registration, Evaluation, Authorization and Restriction of Chemicals. Any supplier of an article containing a substance meeting the criteria in Article 57 and identified in accordance with Article 59(1) in a concentration above 0.1 % weight by weight (w/w) shall provide the recipient of the article with sufficient information, available to the supplier, to allow safe use of the article including, as a minimum, the name of that substance.

The list of substances to be included according to Annex XIV has been published by ECHA (European Chemicals Agency, see <https://echa.europa.eu/de/candidate-list-table>).

häwa GmbH is in contact with selected suppliers for the purpose of obtaining information from these suppliers about substances in their articles within the meaning of Article 33(1) of Regulation (EC) No 1907/2006 of the European Parliament.

Based on the last update of the candidate list dated June 30, 2025 and the information available to häwa from its suppliers at that time, the following substances may be contained in häwa products with a concentration of more than 0.1 mass% each - see appendix.
